

11/8

# Research Methods Workshop: Data Visualization & Mapping

11am-1pm

300 Wallace Hall

Join us at this workshop where you will learn how to work with data sets and free online programs to analyze and visualize information.

Bring your own laptop to learn basic techniques in collecting and organizing data, and for a hands-on introduction free online software for creating interactive charts and maps that you can host on webpages or use as static images in text documents. We will also address the role the data plays in urban studies, and how it can enrich your work.

If you plan to participate, **please sign up for free accounts now** at [datawrapp.de](http://datawrapp.de) and a student account at [carto.com](http://carto.com) (specifically, <https://carto.com/help/getting-started/student-accounts/>).

**RSVP required.** Thank you.

## PRESENTER:

[VizE Lab for Ethnographic Data Visualization,](#)

**Jeff Himpele, Anthropology**

**OPEN TO ALL PRINCETON UNIVERSITY STUDENTS & FACULTY**

RSVP Required ~ [valsmith@princeton.edu](mailto:valsmith@princeton.edu)

***Lunch will be served***

*(Please let us know if you can't make the entire session)*
